Maintains an exemplary record of delivering clear and concise dashboards applicable to various product types

## WORK EXPERIENCE

### Maroon Moshaver Arjan

#### React Developer

Azar 1402 - Current

The website on which I collaborated with this team was a cryptocurrency trading platform, and I held the responsibility for the application logic. This encompassed managing all routing, API calls, authorization processes, as well as real-time functionalities such as web sockets or Pusher events, among other features.

. Routing - API - Web Socket - State Management(Redux & Context) - Performance Optimization

## PROJECTS

### Portfolio Website    🔗 [hosseinjorfi.vercel.app](https://hosseinjorfi.vercel.app)
